Steve,

I just wanted to write and tell you how happy we are with the work you completed on our hme. Your expertise and professionalism was a “breath of fresh air”. We are completely satisfied with the workmanship and your efforts to complete the project on time and on budget.

Sometimes, working on past projects, my definition of a general contractor is someone who’s job it is to “keep a large group of clients only modestly happy”. You broke that mold with the personal attention you gave my project.

As a measurement, you became a friend though the project. I can’t say that about previous contractors I’ve worked with. I look forward to working with you again in the future.

Thanks again,

Brad Starkey
